

PAPER AIRPLANES

Test your paper folding technique with these paper airplane examples. These planes are a great way to add a little levity to your day. The examples below are all beginner or intermediate level.

Material Required: Paper, Scissors, Ruler, Double stick tape (optional)

The Dart: The most basic version. A simple standard that everyone should know how to make.

1. Fold the paper in half vertically.
2. Unfold the paper and fold each of the top corners into the center line.
3. Fold the top edges into the center line.
4. Fold the plane in half toward you.
5. Fold the wings down, matching the top edges up with the bottom edge of the body.
6. Add double stick tape to the inside of the body. The finished plane should look like this. (See picture 6)

The Stealth: This one is built for distance, plus it just looks cool.

1. Fold the paper in half vertically.
2. Unfold the paper and fold each of the top corners into the center line.
3. Fold the peak toward you and 3/4" from the bottom of the paper.
4. Fold both top corners into the center line.
5. Fold the remaining tip over the two flaps at the center line to lock them in place.
6. Fold the plane in half away from you.
7. Fold the wings down 1" from the bottom of the plane.
8. Fold up the sides of each wing 1/2" tall.
9. Cut two small slits at the back of each wing. Fold up the tabs.
10. Add double stick tape to the inside of the body. The finished plane should look like this.

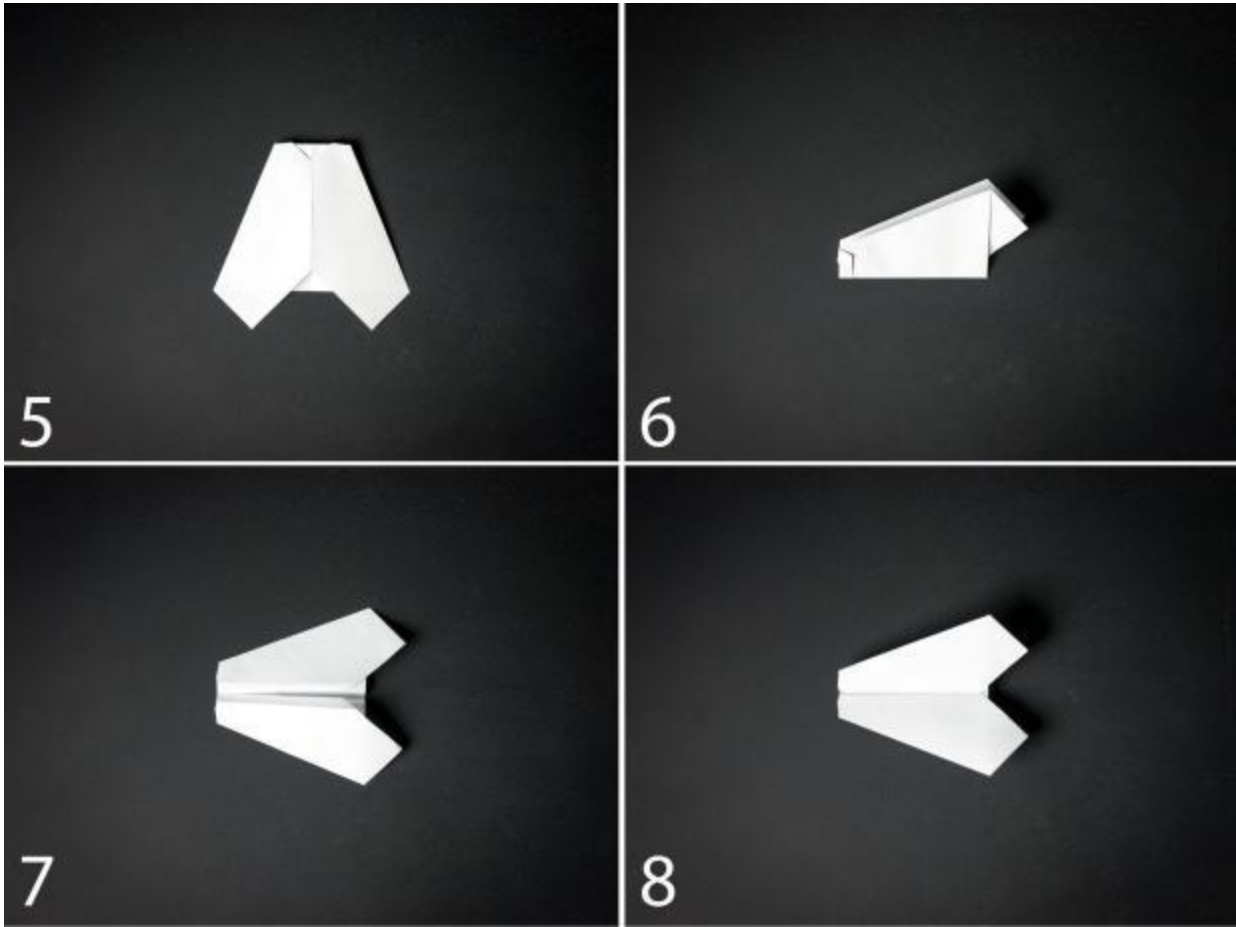

The Bumble: Built correctly, this bee-like beauty stays in the air for a long time.

1. Fold the paper in half horizontally.
2. Unfold the paper and fold each of the top corners into the center line.
3. Fold the peak down to meet the edge of the previous fold.
4. Fold the upper sides into the center line.
5. Fold the top edge 1/2" away from you.
6. Fold the plane in half towards you.
7. Fold the wings down 1/2" from the bottom of the plane.
8. Add double stick tape to the inside of the body. The finished plane should look like this.

Enjoy and have fun!
